Yard Care Rules and Regulations

Adopted May 11, 2017 – Effective June 15, 2017
Modified and Effective October 13, 2022

Summary: The general intent and purpose is to keep everything looking neat, free of clutter, and within the standards of the community. The basics of yard care in the Hills of Waterford include, but are not limited to, regular mowing, weeding, edging, fertilization, insect control, trimming, removing dead plants/trees, and keeping a neat appearance. All homeowners are responsible for reading and understanding these Rules and Regulations. The "yard" is defined as the space or grounds surrounding or surrounded by a dwelling structure. This means the physical area on a Lot, including, but not limited to, the foundation plantings, all grass areas (including the grass strip between the sidewalk and the street), planting beds, trees, flowers, the driveway area, and the mailbox area. The following is a partial list of the requirements for yard care. It is not meant to be an

exhaustive list of all possible conditions, which could apply to proper yard care. Those will be addressed (and enforced) on a case-by-case basis.

LAWN MAINTENANCE:

Lawn maintenance is a year-round requirement with some seasons requiring more attention than others. Regardless of the season, a neat appearance must be maintained. Weeds sprouting up in a lawn or, weeds that are allowed to dominate the make-up of the "lawn", must be eliminated by hand or by chemical means. Weeding, mulching, edging, fertilization and insect control of the lawn and all plantings is also required. Raising the mower blade height, especially during the warmer months, is strongly encouraged to maintain a neat and healthy appearance of the mowed lawn and to avoid scalping. If garden beds or planting areas are developed in a yard, they must be kept weeded and/or mulched to present a neat appearance from the street and neighbors' views. Trees and shrubs must be pruned and fertilized to maintain health and appearance. Dead trees must be removed from any Lot after information is gathered from a routine survey by the Board or property manager or by complaint from a co-owner and subsequent evaluation and recommendation is completed by the Board or property manager. Fruit trees must be cared for to prevent noxious insect infestation. All vegetable gardens must be located out of view from the street and/or integrated with a general landscape plan and are not to exceed 5ft x 10 ft. All vegetable plantings exceeding 5ft x 10ft feet must be included in a landscape plan approved in advance.

YARD-RELATED ISSUES:

No changes or barriers in the original flow of drainage water in the Community shall be made. Lots in the Hills of Waterford must be regularly maintained by weeding and mowing/trimming; erosion must be prevented. At any street intersection, any fence, wall, hedge, shrubbery, tree or any other installation, shall not block line of sight. Outdoor areas shall not be used as storage areas at any time, except for temporary storage of yard waste bags which must be taken to the dump or placed for disposal on a weekly basis. These bags must be placed out of sight from the street and in a neat arrangement until removed from the Lot. Leaves and other debris, which are bagged for disposal, must be temporarily stored in the garage or in an inconspicuous location that is not directly visible from the street or co-owners' views. All bags must be removed from the property on a weekly basis.
